

# how do i decide what's right for me?

We make it simple. Maybe a little too simple...

You tell us where you need coverage, how many machines you need coverage on, and we tell you how much you'll save per month on a managed services package that will let you rest easy knowing you're covered from nuts to bolts.

You need security and we have it, let us help you get started today.

	av only	basic	complete	it pro*

**ThinkSpace IT**  
(a *creative* approach to technology)

tired of juggling  
when it comes to the  
**security and reliability**  
of your network? let us take the  
confusion out of the equation with our lineup  
of managed service bundles

# it pro service bundle

Got an IT department but just need a little help monitoring your network?

From managed desktops and servers, onsite and remote remediation, anti-virus, reporting and alerts to a one-stop dashboard that lets you keep one eye on your network and one eye on your business, we've got you covered.

\*minimum 1 year contract paid up front annually with a minimum of \$250/month in services.

# basic service bundle

With ThinkSpace IT, you can "grow as you go." You have the flexibility to start with the managed services that make the most sense for you, and then grow with us as your needs change. With our basic managed plan we provide you with managed AV, monthly reporting, patch management on your desktops and servers and monitor your network for performance alerts.

**IDEALLY SUITED FOR** - Anyone with minimal on-site IT staff  
**WHAT'S INCLUDED** - AV, monthly reports and alerts

per server

\$90/hr

remote remediation

\$90/hr

on-site remediation

# complete service bundle

With the full service bundle we manage, maintain and support your entire IT infrastructure for one monthly fee. We provide you with the same outstanding services as our base package, but we also include unlimited remote remediation and the dashboard so you can monitor the health of your network 24/7.

**IDEALLY SUITED FOR** - Anyone without on-site IT staff  
**WHAT'S INCLUDED** - AV, monthly reports, alerts & remote remediation
