

Do you have old, broken or outdated bits of technology sitting around your house collecting dust? Don't just throw it out with the trash, bring it on down to us so we can properly recycle it!

ThinkSpace IT has teamed up with Midwest Metal Recyclers in Logan to help you clear your clutter and get that old technology recycled so that it can have a new life.

There is NO FEE to drop off your e-waste, just bring it on over to our offices on the corner of Market St. & 7th from 4pm to 8pm on Thursday October 22nd. **All recyclers will receive an "I RECYCLED!" sticker and be entered into a drawing for a 2TB LG flash drive.**

**Acceptable items include:** laptops, desktops, servers, monitors (CRTs will incur a \$5 cost), mice, printers, scanners, external & internal hard drives, keyboards, UPS battery backups, and tablets.

# e-waste recycling drive

thursday october 22, 2015

4pm - 8pm

9197th st harlan, ia 51537
